

Terrorist Attacks

The People of Lambeth were shocked by the terrorist attack in the capital on the 7th July. Such a threat has been a possibility for sometime, and the planning and preparation, which took place, enabled a co-ordinated and effective response from the emergency services. Working together as partners, we want to do as much as we can to prevent such an incident.

It is important to be vigilant and report any intelligence to the Police, it can help us prevent any further attacks.
